RECOMMENDATIONS:

1. The web application is recommended to be hosted at <https://www.cgiedinburgh.gov.in> with 'Read Only permission'.
2. Security hardening / secured configuration of the Web Server, Network devices and Operating System are recommended for the hosting environment.
3. Regular security vulnerability assessment of the hosting It infrastructure (servers and network devices) are recommended
4. HTTP Security headers should be properly configured so that there is no duplicate header and Content-Security-Policy header is to be used instead of X-Content-Security-Policy.

CONCLUSION:

- This statement of compliance is issued for the specific version of the Web Application.
- This Statement of compliance becomes null and void, if changes are made to the Application code related to the security architecture & security mechanisms for handling inputs, user Access Control, user Authentication & Authorization, Session Management, handling sensitive data, Data encryption at Rest & in Motion, handling of runtime errors & external resources.
- This statement of compliance state is also become null and void if there is any change in underlying IT infrastructure or their configuration, hosting the Web Application and if any new vulnerabilities are discovered.
